

FOR IMMEDIATE RELEASE:  
November 15, 2012

ATCO Software Inc. is proud to announce their inclusion in the Hilton Hawaiian Village app created by Intelity of Orlando Florida.

Hilton Hawaiian Village is currently using the ATCO Voucher software at their concierge desks throughout the property. Hilton Hawaiian Village also uses the ATCOREz software for their Waikiki Starlight Luau and special events. Currently, guests can book the luau and many offsite tours on the Hilton Hawaiian Village website utilizing the ATCO shopping carts that are part of the ATCO Voucher and ATCOREz platforms.

When Intelity was chosen to design the app for the Hilton Hawaiian Village, ATCO was asked to work with Intelity to include their real-time web booking capabilities for the luau and off-site tours and attractions.

Here is the new Hilton Hawaiian Village App:
